Teams

Teams of Four People ONLY

Alternates - One

Squads of 5 with at least 3 of the 4 team members present each week, or the team forfeits that weeks points.

Weekly Winners

The weekly winner is the team with the highest number of points scored that night. In the advent of a tie at the end of the categories, the winning team will be decided by a Trivial Pursuit Card-Off. Each team will be given a Trivial Pursuit card and 5 minutes. At the end of 5 minutes the team with the total number of correct answers will be proclaimed winner. In the advent of another tie the Trivia Hosts will agree on a single question. That question will be read to both teams simultaneously and the first team to "buzz-in" gets first shot at answering the question. If the first team to "buzz-in" gets the question wrong then the other team is acclaimed winner.

Progress Winners

After each week the scores from the previous weeks will be tallied and the progress scores will be announced.

Final Winner

The winner of the March Mania Trivia Competition will be the team with the highest number of points after 4 weeks. If there is a tie at the end of 4 weeks, then the final winner will be determined by the same process used to determine the weekly winners, namely:

The winning team will be decided by a Trivial Pursuit Card-Off. Each team will be given a Trivial Pursuit card and 5 minutes. At the end of 5 minutes the team with the total number of correct answers will be proclaimed winner. In the advent of another tie the Trivia Hosts will agree on a single question. That question will be read to both teams simultaneously and the first team to “buzz-in” gets first shot at answering the question. If the first team to “buzz-in” gets the question wrong then the other team is acclaimed winner.
